

# PumpWorks Industrial ANSI Power End Upgrade Program

**5 Year  
Unconditional  
Power End  
Warranty**

**NOW AVAILABLE WITH**

**PredictPlus**

Proactive Pump Health Monitoring

## Why rebuild your power end when you can upgrade for less?

The PumpWorks Industrial ANSI Power End Upgrade Program not only provides a superior product, it also beats the high cost of rebuilding by providing an upgrade at a better price than other more expensive sources.

### Get a standard upgrade for increased reliability:

- **Exclusive!** ISO-MAG bearing isolators provided versus less effective lip seals
- PumpWorks upgraded power ends deliver significantly reduced oil temperature and longer bearing life
- Three step bearing frame internal coating process to reduce oil contamination
- Dual sight glasses provide visibility level regardless of pump location

### Multiple alloy bearing frame options:

- WCB carbon steel (standard)
- 316SS and higher (optional)

**NEW!**  
PumpWorks  
PWA Frames  
Now Available  
for Durco  
Mark III!

**PWA Power Frames Upgrades: Durco Mark III, 3196 T, X or i Series**  
Other Pumps Based on T, X or i Frames

## Join the PumpWorks Industrial ANSI Power End Upgrade Program and take advantage of:

### 100% made in the USA

All components are sourced, cast and machined in the USA.

### Reduced inventory costs

Your stocking personnel only have to manage records on one item instead of dozens.

### Reduced direct maintenance costs

Man-hours spent on getting a pump up and running are dramatically reduced.

### Reduced production downtime costs

Faster repairs result in reduced production costs, and you never pay for a part that's out of stock. Since you're installing a new upgraded unit, you can rest assured that you'll have longer, more reliable performance.

**Our 5 year unconditional Power Frame warranty is standard with every product.**
